Fields Corporation (Head office: Shibuya-ku, Tokyo; President and CEO: Hidetoshi Yamamoto) announces the nationwide release of Bisty Co., Ltd.'s new pachislot machine: "Neon Genesis Evangelion—'Magokoro wo Kimini'"

This new pachislot machine features content from the incredibly popular animated series, Neon Genesis Evangelion. The new machine is the follow-up to the first Neon Genesis Evangelion pachislot machine, which was launched in line with the new regulations [for the industry] introduced in September 2005, and it offers even greater thrills and excitement than that earlier machine.

Featuring a vividly lit-up 10-inch "gigantic shutter," synchronized with high-quality images from the LCD, the machine conveys the magnificent worldview of the original animated series. It includes original animations created by Gainax Co., Ltd. and also incorporates many songs. On top of this, the machine is equipped with the "Emergency mode" with images from the series of Neon Genesis Evangelion pachinko machines, offering pachislot fans an even more fun-filled game experience.

As a pachislot machine that seeks to make an impact, it can be enjoyed not only by pachislot enthusiasts, but also by a wide range of people, including fans of animation.

"Neon Genesis Evangelion— 'Magokoro wo Kimini'" is scheduled for delivery in July 2007 to pachinko parlors throughout Japan.
