Fields Corporation (Head office: Shibuya-ku, Tokyo; President and COO: Takashi Oya) announces the nationwide release of the new pachinko machine from Sammy Corporation, "CR Virtua Fighter."

The CR Virtua Fighter pachinko machine adopts content from the popular Sega Corporation arcade and home video game Virtua Fighter. Since its introduction as the world's first 3D fighting game, this series continues to evolve and has captured the imagination of many fans.

Employing cutting-edge technology in full collaboration with Sega Corporation, this machine completely recreates the many special moves, subtle motions and other characteristics of the game's characters. Players can enjoy an experience that rivals the original game to the fullest. This is the result of such features as the characters' background stories, as well as the "Battle System" that allows players to participate in a way that makes it closely resemble a fighting game.

Sticking closely to the gameplay of the Virtua Fighter series in a way that will win the respect of fans of the original, this machine is not only for pachinko enthusiasts but a wide range of people, including video game fans.

The CR Virtua Fighter pachinko machine is scheduled for delivery in July 2008 to pachinko halls throughout Japan.
