Fields Corporation (Head office: Shibuya-ku, Tokyo; President and COO: Takashi Oya) announces the nationwide release of a new pachislot machine from Bisty Co., Ltd., "SAMURAI 7".

The GONZO-produced TV animation, *SAMURAI 7*, is a content that has created buzz by pushing the boundaries of historical drama and creating a time period of warring humans and robots.

This machine features the two types of "SAMURAI RUSH" that make up the Assist Replay Time (ART) system. The game functions that allow the player to carve out their own destiny have been realized through a number of chances to enter "ART", such as missions. Also incorporated are many beautiful and varied LCD-screen visuals that showcase the unique personalities of the samurai. Players can view various and continuous scenes during chances to score higher points, thus raising the excitement of the game. Players will enjoy stories that change in the various game progresses and expectations.

This machine is not only for pachislot enthusiasts, but a wide range of people including animation fans.

A pachislot machine that combines all the elements a player could ask for, "SAMURAI 7" is scheduled for delivery in May 2011 to pachinko halls throughout Japan.
