Fields Corporation (Head office: Shibuya-ku, Tokyo; President and COO: Takashi Oya) announces the nationwide release of a new pachislot machine from Bisty Co., Ltd., “**Evangelion—the Heartbeat of Life**”.

“Evangelion—the Heartbeat of Life”, the latest machine in the pachislot series, represents a significant evolution in both software and hardware. Evangelion grows ever more popular, with a new Evangelion movie entitled *Evangelion: Q*, the third theatrical release in the Rebuild of Evangelion series, to be released in autumn of 2012.

This machine features a “multi-shutter panel”, the first ever used in a pachislot machine, linked to the LCD display, and multiple moving devices making this machine, with its new, exclusive chassis, the most striking of the series.

The high quality video presentation is coordinated with a diverse range of foreshadowing effects, panels, and moving devices, resulting in a machine that embodies the Evangelion world in every aspect. The gameplay is focused equally on ease of play and depth, and includes new game system elements, such as the series’ first Big Bonus and Chance mode, in which players can win approximately 448 medals. This gives the machine an unprecedented sense of freshness and novelty.

This new machine, breaking down the barriers and beating with the heartbeat of new life, can be enjoyed by a wide range of people, from pachislot enthusiasts to anime fans.
