Recording method of net sales for PS sales

Effective on April 2021, the Company adopted the "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020). As a result, transactions* in which our group is the "sole distributor" are accounted for as follows regardless of the sales method (distributor/agency sales).

Net sales:

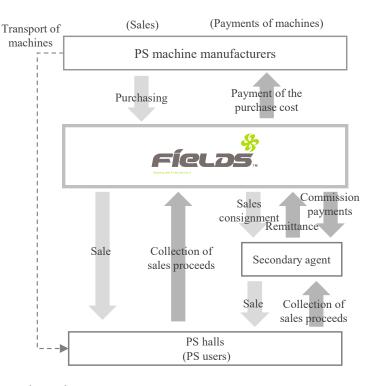

Record the price of PS machines that we sell to pachinko halls (criterion for recording sales: at the time of shipment of the PS machines)

Cost of sales:

Record purchase price of PS machines from manufacturers (also record agency commissions when selling through agencies)

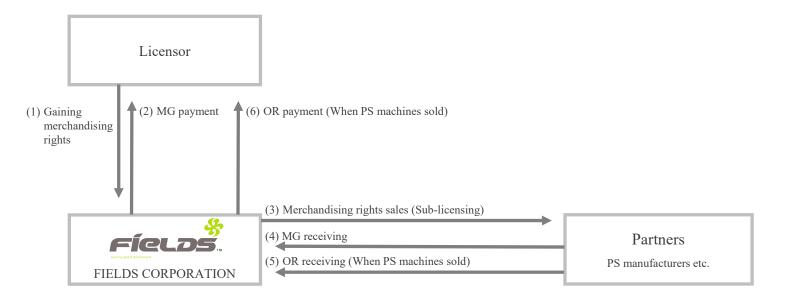

*We have a contract that stipulates that we will exclusively sell PS machines.

Price of PS machine collection method (image)

Business flow of merchandising rights in products planning and development for which our group is the sole distributer

*Profits and losses related to the license is recorded when the PS machine is sold.

(2) (4) MG (Minimum Guarantee): Minimum guarantee fee paid by the licensee to the licensor when concluding a license business contract (5) (6) OR (Over Royalty): Type of royalty paid as reward when the usage of rights authorized for use, such as copyrights and industrial property rights, exceeds a certain level, and whose amount fluctuates according to the usage of such rights

1. Basic policy

Our group's mission is to realize *The Greatest Leisure for All People*, a corporate philosophy shared by the group. As society matures, the importance of leisure time in people's lives is increasing. Our Group believes that pursuing the ways in which people seek entertainment and leisure and enhancing leisure through the provision of new merchandise and services will enrich people's live, in turn, lead to the happiness of society as a whole.

At the same time, social issues such as climate change and regional issues are emerging as a result of social and environmental changes. There are also social issues that may arise in connection with our group-wide operations, such as emissions of greenhouse gases associated with the distribution and manufacturing of PS business. We recognize that responding to these social issues is essential for us to grow our business in a sustainable manner and deliver the best leisure to as many people as possible.

Under such circumstances, we have decided to proceed with the transition to a global content business enterprise under the "New Medium-Term Management Plan (FY2023-FY2025)" announced in May 2023. We recognize that sustainability and non-financial initiatives are essential to the ongoing provision of the best leisure to many people around the world. We are committed to promoting sustainability management in order to achieve sustainable growth and increase our corporate value.

"Sustainable Development Goals" set by United Nations (UN)

We believe that a society in which the United Nations aims to "end poverty in all its forms everywhere and leave no one behind" is one in which all people can live healthy, safe, and fulfilling lives. And we think there is the greatest leisure through various kinds of entertainment.

Toward that goal, we will achieve the United Nations "Sustainable Development Goals (SDGs)" and continue our business activities to provide the best leisure. Through these efforts, we will contribute to the development of a sustainable society.

Consumer Trends Data

- P.4 1. Change in working hours
 - 2. Trends in household consumption

1. Change in working hours

The data is based on the Monthly Labour Survey by Ministry of Health, Labour and Welfare, updated every April

According to the *Monthly Labor Survey*, Japan's annual total actual working hours (business establishment with more than 30 people) in 2023 were 1,726 hours (100.5% YoY), marking the third consecutive year of increase. Official working hours were 1,580 hours (100.5% YoY). In addition, overtime working hours were 146 hours (100.0% YoY). The number of working hours increased as a whole.

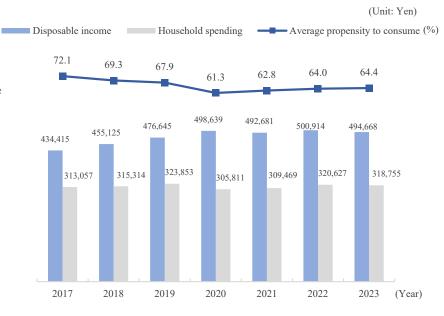

^{*}The Ministry of Health, Labour and Welfare announced the survey had not been carried out accurately from 2004 to 2017. The figure of 2017 shows the recounted data.

2. Trends in household consumption

The data is based on the Family Income and Expenditure Survey (Family budget balance edition) by Statistics Bureau, Ministry of Internal Affairs and Communications, updated every April

According to the *Family Income and Expenditure Survey*, disposable income per household of more than two people for employees (monthly average) in 2023 was ¥494,668 (98.8% YoY). Household spending under the same condition was ¥318,755 (99.4% YoY).

Average propensity to consume (the household spending ratio to the disposable income) was 64.4% (up 0.4 points YoY).

^{*} The Statistics Bureau of the Ministry of Internal Affairs and Communications revised the household budget ledger used in the survey conducted in January 2018. Figures published by the Ministry of Internal Affairs and Communications are shown for various figures.
